Bariatric Advantage OmegaVanta 10® Softgels deliver a more complete omega formula with a powerful combination of omega-3s and omega-7s for targeted, enhanced support for overall cardiovascular health and healthy blood lipids.* Enteric softgel reduces likelihood of belching, particularly beneficial for bariatric surgery patients.

- Omega-3 fatty acids must be obtained in food or dietary supplements as the body does not efficiently make them.

ASMBS nutrition guidelines call for a balanced diet including a healthy intake of omega-3 fatty acids.¹

Omega-3 EPA and DHA help support eye health, brain health, healthy mood, and healthy plasma triglyceride levels.*
